Gustavo Avelino Sanchez

Full Stack Web Developer | Internship, Trainee and Junior Roles | JavaScript | React | Node.js | Express | MongoDB

São Paulo – SP, Brazil | gustavoavelino07@gmail.com

gusanchez1.github.io/en | linkedin.com/in/gustavo-avelino-sanchez-5a799aa1 | github.com/gusanchez1

Objective

Seeking an internship, trainee or junior position as a Full Stack Developer or Web Developer, building web applications with JavaScript, React, Node.js, Express and MongoDB. Attending evening classes, with availability during the day for on-site, hybrid or remote work, including for companies abroad.

Highlights

Built Nardelli Barber as a freelancer: an online booking web system with an admin dashboard, used every day by a barber in São Paulo. It replaced the third-party platform he relied on and brings together scheduling, clients, recurring appointments, pricing and revenue. Gathered requirements with the client, led development with AI assistance (Claude Code) and tested every feature on different devices before delivery.

The project applies real business rules in a full stack (MERN) application. A unique index in MongoDB prevents double bookings, dates follow the São Paulo time zone, prices are stored in cents and every API input is validated with Zod. Availability, pricing and recurrence rules are covered by 37 automated tests.

Experience

Nardelli Barber – Freelance Full Stack Developer Oct 2026

Developed a website with online booking and an admin dashboard for a self-employed barber, deployed on Render and in daily use. Gathered requirements with the client, implemented it in stages with AI assistance (Claude Code), reviewed the code and tested it on computers and smartphones. React, Vite, Tailwind CSS, Node.js, Express, MongoDB, JWT and Zod.

Fundação Faculdade de Medicina – Administrative Assistant Dec 2024 – Aug 2026

Managed requests, documents, spreadsheets and administrative processes, and supported the organization of the operations team, using Excel, Word and Outlook.

Fundação Faculdade de Medicina – Administrative Aide Dec 2023 – Dec 2024

Organized physical and digital documents, created spreadsheets and supported administrative routines in the Billing department.

Fundação Faculdade de Medicina – Office Messenger Apr 2022 – Dec 2023

Distributed documents, mail and materials across departments, supporting the institution's administrative and operational routines.

Education

Computer Science – FAM – 2024 to 2027 (in progress: 6th semester, evening classes)

The Web Developer Bootcamp (Colt Steele) – Udemy – 2026 (in progress)

HTML5 and CSS3 Course – Curso em Vídeo – 2025

JavaScript Course – Curso em Vídeo – 2025

Languages

Portuguese (native), English (fluent). Studied English at Cultura Inglesa from 2016 to 2022 and use it daily to read technical documentation and follow technology content.

Skills

HTML5, CSS3, JavaScript, Node.js, Express.js, MongoDB, Mongoose, REST APIs, Bootstrap, Git, GitHub, VS Code, Claude Code, Excel, Word, PowerPoint, Outlook.

Currently learning and applied in Nardelli Barber: React, Vite, Tailwind CSS.
